Comments:

@@@1. The right to sue should be safeguarded regardless of the agreement to first go to arbitration.
2. The lender should disclose the costs before and after making any change to the charges to the consumer in a simple easy to read format.
3. The costs of any offer should be shown in a readable type face - no fine print smaller than the rest of the offer text.
4. The rights of the consumer and requirements of the lender should be preserved.
